

Healthcare Workplace Safety Certificate Program

Who are we?

Great Lakes OSHA Education Center! We are an OSHA authorized Education Center housed at the University of Cincinnati's Department of Environmental Health. We specialize in occupational safety and health training to private and public sector workers, supervisors, and employers.

How can you benefit?

The Healthcare Workplace Safety Certificate allows **Safety Directors, Occupational Nurses & Physicians, Nursing Home Staff, Hospital Staff, and Other Healthcare Professionals** to continue their workplace safety education. This certificate will assist you in developing programs to help prevent occupational injuries in your workplace and will provide you with the skills to keep employees alert & safe.
