

## Industrial Hygiene Safety Certificate Program

### *Who are we?*

Great Lakes OSHA Education Center! We are an OSHA authorized Education Center housed at the University of Cincinnati's Department of Environmental Health. We specialize in occupational safety and health training to private and public sector workers, supervisors, and employers.

### *How can you benefit?*

The Industrial Hygiene Safety Certificate allows **Safety Directors, Industrial Hygiene Technicians, and Other Occupational Health Professionals** to enhance their education in the practice of Industrial Hygiene. The coursework in this certificate program will assist you in developing strategies to sample occupational environments and to interpret the data relative to OSHA standards with the goal of preventing occupational illnesses in your workplace.

### *Required Courses*
